

1972 PortaDrill 10TK
Rig serial number is 10TH 194
Rig has 30000+ hrs
Decker Engine is a 6V71
Compressor is 586 cfm @125 psi model number is DR4 Serial Number 51386420
Compressor hours are unknown; there is no hour meter
Rig is mounted on an International with a DV550 Engine 200HP
Vin 3777251G439025
Miles are 37841
Tower is 42'with rack for pulling double 15' stem
Table is 8" sliding
It has a 15 gpm water injector
Rig has an oiler for air drilling
Mud pump is a 3X4 capable of 120 psi centrifugal
Drawworks are hydrostatic
Pullback is 60,000lb
Hoist cap is 60,000lb
Winch cap is 5,000lb
We have all maintenance records and manuals for this unit.
